

WET MORTAR

Revision n. 2 EN Dated 28/12/2022 Printed on 28/12/2022 Page n. 1/10 Replaced revision:1 (Dated 07/09/2020)

| | Safety Data | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|-----------------------------------------------------------------|-----------------------------------------------------------------|
| According to An | nex II to REACH - Regulation 2 | 020/878 and to Annex II to UK R | EACH |
| SECTION 1. Identification of the | he substance/mixtu | re and of the compar | ny/undertaking |
| 1.1. Product identifier | | | |
| Code: | M25 | | |
| Product name | WET MORTAR | | |
| 1.2. Relevant identified uses of the substanc | e or mixture and uses advised | l against | |
| Intended use | High quality fine wet r | nortar | |
| Identified Uses | Industrial | Professional | Consumers |
| BUILDING | - | SU: 19. ERC: 10a, 11a. PROC: 11, 19. AC: 4. PC: 9b. | SU: 19. ERC: 10a, 11a. PROC: 19. AC: 4. PC: 9b. |
| DO-IT-YOURSELF | - | | SU: 19. ERC: 10a, 11a. PROC: 19, 26. AC: 4. PC: 9b. |
| Ready to use product. Product for craft and private use. Any other use is not recommended. 1.3. Details of the supplier of the safety data | sheet | | |
| Name | ITALCALCE SRL | | |
| Full address | Via Salisano, 1 | | |
| District and Country | 04019 Terracina (LT) Italy | | |
| | tel. +39 0773 703024 | | |
| | fax +39 0773 700468 | | |
| e-mail address of the competent person responsible for the Safety Data Sheet | info@italcalce.it | | |
| 1.4. Emergency telephone number | | | |
| For urgent inquiries refer to | HEALTH EMERGENC | Y - 112 | |
| | | | |
| | ation | | |

2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions set forth in (EC) Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). The product thus requires a safety datasheet that complies with the provisions of (EU) Regulation 2020/878. Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

| Hazard classification and indication: | | |
|--------------------------------------------------------------|------|-----------------------------------|
| Serious eye damage, category 1 | H318 | Causes serious eye damage. |
| Skin irritation, category 2 | H315 | Causes skin irritation. |
| Specific target organ toxicity - single exposure, category 3 | H335 | May cause respiratory irritation. |

2.2. Label elements

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

WET MORTAR

Revision n. 2 EN Dated 28/12/2022 Printed on 28/12/2022 Page n. 2/10 Replaced revision:1 (Dated 07/09/2020)

SECTION 2. Hazards identification

| Hazard pictograms: | | | | |
|------------------------------|-------------------------------------------------------------------------------------------------------------------------|--|--|--|
| | | | | |
| PG | | | | |
| * * | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| Signal words: | Danger | | | |
| Hazard statements: | | | | |
| H318 | Causes serious eve damage. | | | |
| H315 | Causes skin irritation. | | | |
| H335 | May cause respiratory irritation. | | | |
| Precautionary statements: | | | | |
| P280 | Wear protective gloves/face protection. | | | |
| P302+P352 | IF ON SKIN: Wash with plenty of soap and water. | | | |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue | | | |
| | rinsing. | | | |
| P310 | Immediately call a POISON CENTER / doctor / | | | |
| P101 | If medical advice is needed, have product container or label at hand. | | | |
| P102 | Keep out of reach of children. | | | |
| P273 | Avoid release to the environment. | | | |
| | | | | |
| Contains: | HYDRATED LIME | | | |
| | | | | |
| 2.3. Other hazards | | | | |
| | | | | |
| On the basis of available da | ata, the product does not contain any PBT or vPvB in percentage \geq than 0,1%. | | | |
| The product does not conta | in substances with endocrine disrupting properties in concentration $\geq 0.1\%$. | | | |
| | | | | |
| | | | | |

SECTION 3. Composition/information on ingredients

3.2. Mixtures

Contains:

| Identification | | x = Conc. % | Classification 1272/2008 (CLP) |
|----------------|-----------|--------------|-----------------------------------------------------|
| HYDRATED L | (ME | | |
| CAS | 1305-62-0 | 25 ≤ x ≤ 35 | Eye Dam. 1 H318, Skin Irrit. 2 H315, STOT SE 3 H335 |
| CE | 215-137-3 | | |
| INDEX | | | |
| Nr. Reg. | 01-211947 | 5151-45-0228 | |
| CE INDEX | 215-137-3 | | |

The full wording of hazard (H) phrases is given in section 16 of the sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice.

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Wash contaminated clothing before using it again. INHALATION: Remove to open air. If the subject stops breathing, administer artificial respiration. Get medical advice/attention immediately. INGESTION: Get medical advice/attention immediately. Do not induce vomiting. Do not administer anything not explicitly authorised by a doctor.

WET MORTAR

Revision n. 2 EN Dated 28/12/2022 Printed on 28/12/2022 Page n. 3/10 Replaced revision:1 (Dated 07/09/2020)

SECTION 4. First aid measures

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with selfcontained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.

Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

WET MORTAR

EN Revision n. 2 Dated 28/12/2022 Printed on 28/12/2022 Page n. 4/10 Replaced revision:1 (Dated 07/09/2020)

SECTION 7. Handling and storage

7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store the containers sealed, in a well-ventilated place, away from direct sunlight. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

MED = medium hazard ; HIGH = high hazard.

8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

When choosing personal protective equipment, ask your chemical substance supplier for advice.

Personal protective equipment must be CE marked, showing that it complies with applicable standards.

Provide an emergency shower with face and eye wash station.

HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

WET MORTAR

Revision n. 2 EN Dated 28/12/2022 Printed on 28/12/2022 Page n. 5/10 Replaced revision:1 (Dated 07/09/2020)

SECTION 8. Exposure controls/personal protection

SKIN PROTECTION

Wear category II professional long-sleeved overalls and safety footwear (see Regulation 2016/425 and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

EYE PROTECTION

Wear airtight protective goggles (see standard EN 166).

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 137). For a correct choice of respiratory protection device, see standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Properties | Value | Information |
|-------------------------------------------------|----------------|-------------|
| Appearance | paste | |
| Colour | white | |
| Odour | odourless | |
| Melting point / freezing point | Not available | |
| Initial boiling point | Not available | |
| Flammability | Not available | |
| Lower explosive limit | Not available | |
| Upper explosive limit | Not available | |
| Flash point | > 93°C | |
| Auto-ignition temperature | Not available | |
| Decomposition temperature | Not available | |
| рН | 12 | |
| Kinematic viscosity | Not available | |
| Solubility | Not available | |
| Partition coefficient: n-octanol/water | Not available | |
| Vapour pressure | Not available | |
| Density and/or relative density | 1,5 | |
| Relative vapour density | Not available | |
| Particle characteristics | Not applicable | |

| 9.2. Other information | | |
| 9.2.1. Information with regard to physical haza | ard classes | |
| | | |

Information not available

9.2.2. Other safety characteristics

Granulometry

< 0.6 mm

SECTION 10. Stability and reactivity

10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

HYDRATED LIME

Stable in normal conditions of use and storage.

WET MORTAR

Revision n. 2 EN Dated 28/12/2022 Printed on 28/12/2022 Page n. 6/10 Replaced revision:1 (Dated 07/09/2020)

SECTION 10. Stability and reactivity

10.2. Chemical stability

The product is stable in normal conditions of use and storage.

HYDRATED LIME

Stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage.

HYDRATED LIME

Develops hydrogen on contact with: aluminium, brass, moisture. Reacts with: carbon dioxide.

10.4. Conditions to avoid

None in particular. However the usual precautions used for chemical products should be respected.

HYDRATED LIME Decomposes if exposed to: moisture, moist air.

10.5. Incompatible materials

HYDRATED LIME

Avoid contact with: acids.

10.6. Hazardous decomposition products

HYDRATED LIME

Develops hydrogen on contact with: aluminium, brass, moisture.

SECTION 11. Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

ATE (Inhalation) of the mixture: ATE (Oral) of the mixture: ATE (Dermal) of the mixture:

SERIOUS EYE DAMAGE / IRRITATION

Causes serious eye damage

RESPIRATORY OR SKIN SENSITISATION

Does not meet the classification criteria for this hazard class

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

STOT - SINGLE EXPOSURE

May cause respiratory irritation

STOT - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with human health effects under evaluation.

SECTION 12. Ecological information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.

> 160 mg/l/96h

SECTION 12. Ecological information

12.6. Endocrine disrupting properties

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with environmental effects under evaluation.

12.7. Other adverse effects

Information not available

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

SECTION 14. Transport information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

14.1. UN number or ID number

Not applicable

14.2. UN proper shipping name

Not applicable

14.3. Transport hazard class(es)

Not applicable

14.4. Packing group

Not applicable

14.5. Environmental hazards

Not applicable

14.6. Special precautions for user

Not applicable

14.7. Maritime transport in bulk according to IMO instruments

Information not relevant

SECTION 15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Seveso Category - Directive 2012/18/EC: None

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006

Product Point

3

Regulation (EU) 2019/1148 - on the marketing and use of explosives precursors not applicable

WET MORTAR

Revision n. 2 EN Dated 28/12/2022 Printed on 28/12/2022 Page n. 9/10 Replaced revision:1 (Dated 07/09/2020)

SECTION 15. Regulatory information

<u>Substances in Candidate List (Art. 59 REACH)</u> On the basis of available data, the product does not contain any SVHC in percentage \geq than 0,1%.

Substances subject to authorisation (Annex XIV REACH)

None

Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012: None

Substances subject to the Rotterdam Convention: None

Substances subject to the Stockholm Convention: None

Healthcare controls

Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.

15.2. Chemical safety assessment

A chemical safety assessment has not been performed for the preparation/for the substances indicated in section 3.

SECTION 16. Other information

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

| Eye Dam. 1 | Serious eye damage, category 1 |
|---------------|--------------------------------------------------------------|
| Skin Irrit. 2 | Skin irritation, category 2 |
| STOT SE 3 | Specific target organ toxicity - single exposure, category 3 |
| H318 | Causes serious eye damage. |

Note for users:

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Provide appointed staff with adequate training on how to use chemical products.

CALCULATION METHODS FOR CLASSIFICATION

Chemical and physical hazards: Product classification derives from criteria established by the CLP Regulation, Annex I, Part 2. The data for evaluation of chemical-physical properties are reported in section 9.

Health hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 3, unless determined otherwise in Section 11. Environmental hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 4, unless determined otherwise in Section 12.
